DETAILED ACTION

Allowable Subject Matter

Claims 2-22 are allowed.

The following is an examiner's statement of reasons for allowance: The combination of Cross and the Admitted Prior Art discloses a loudspeaker having a spherical vibrator, a first and second baffle board, and a plurality of spacers, as discussed in the previous Office Action. However, the combination fails to disclose or suggest that the vibrator has a natural resonant frequency greater than any frequency in the desired bandwidth of the loudspeaker, as required by claim 2. In addition, the combination does not disclose nor suggest an open space between the first and second baffle boards, where only the spaces extend into the open space, as necessitated by claim 13. As pointed out by Applicant, Cross has an absorptive material 18 along with the spacers 24 between the baffles and there was no motivation to remove the absorptive material. As a result, independent claims 2 and 13 and their respective dependents are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian T. Pendleton whose telephone number is (571) 272-7527. The examiner can normally be reached on M-F 7-4:30.
